

1INCH by JASPER MORRISON

1 Inch Collection features a chair and armchair, stools in 3 heights, and café and bar tables. Frames are made using a 1" tube of recycled aluminum, which is combined with 100% reclaimed wood polypropylene, plywood or upholstered fabric or leather.

For the 1 Inch Collection, Jasper Morrison tapped into Emeco's heritage in hand crafting recycled aluminum, and leveraged its signature strength, light weight, and sustainability. Emeco and Jasper Morrison together have created a collection that reflects our values and uncompromising standards - a seating family that is strong, simple, timeless, and engineered to last.
